

## Senior eLearning Multimedia Artist, San Diego

ScienceMedia provides clinical and medical multimedia educational content to Life Science companies in order to enhance clinical competency throughout their organizations. We also provide a cloud based learning library, SMi Source™, that enables anyone to search and learn from over 14,000 interactive topics and hundreds of courses. In other words, *we teach complex science simply!*

ScienceMedia is looking for a skilled Senior eLearning Multimedia Artist to join our growing development team. In this role, you'll use your creativity and experience with rapid authoring tools to develop engaging self-paced eLearning modules for Life Science topics.

### Essential Responsibilities:

- Ability to meet deadlines within the allotted budget hours
- Act as a technical resource for Storyline to resolve complex problems within the eLearning content
- Create, edit, and sync animation, graphics, and videos
- Design, develop, and program eLearning content, according to storyboards written by medical writers, instructional designers, and subject matter experts
- Edit and sync audio narration to onscreen content
- Ensure all work is conducted in accordance with standard company development processes
- Maintain a high-level product that is accurate, error-free, and meets client needs
- Recognize and address the impacts of changes requested to work products
- Review storyboards to give feedback on instructional design and eLearning best practices

### Requirements:

- At least 3-5 years of experience developing self-paced course content in rapid authoring software (Articulate Storyline)
- Excellent communication and time management skills
- Excellent multi-tasking, analytical, and organizational skills
- High attention to detail
- Strong multimedia and graphic design proficiency using Adobe Photoshop, Illustrator, Flash/Animate, and After Effects
- Strong understanding of HTML5 and developing content accessible on all modern platforms, including mobile
- Strong understanding of learning management systems, familiarity with SCORM 1.2/AICC

### Benefits:

- Competitive compensation
- PTO and paid holidays
- Medical and dental insurance coverage
- 401K
- Educational Assistance for continuing education
- Casual dress code
- Teamwork environment
- Fun and interactive corporate culture
